FOOLISH WORK

The News Should Not Allow Politics to Govern Its Course at This Time

The attempt of the News to disparage the action of Acting Governor Allen in declaring a week of legal holiday is all timed just at this juncture.

He did it at the recommendation of the business men of the State and he did it none too soon. The San Francisco calamity resulted in a panic feeling all over the State. No one knew the condition of the bank vaults of San Francisco at the time. The banks of Nevada have millions on deposit in San Francisco against which deposit they draw checks.

A few days ago a check on the San Francisco Bank was not worth the paper written on. The local banks do not retain in this state more than ten per cent of their capital. The holidays were declared to give business men and banks a breathing spell. There could be no run on the banks for a week for the banks could take advantage of the law and close their doors for a week. Does the fool News want to precipitate a panic? It looks like it. It had an item the other day that when the banks of Reno took advantage of the proclamation to suspend business for the week that thousands of excited people were crowding about their doors. As a matter of fact just nine people in Reno went to see what was the matter and having the matter explained to them went away and continued their vocations.

A few foolish people might have started a run and had they done as the banks of Nevada with out the power to draw on their San Francisco accounts would have gone under and a business panic inaugurated here which would have been highly disastrous to the entire State.

Now the danger is passed for the news comes from San Francisco that the bank vaults of every bank in San Francisco has been examined and found intact. The United States Government has placed millions at the disposal of these banks to transact business until they can clear away the ruins and rebuild. It shows that Uncle Sam has every faith in the condition of those bank vaults. He has put the United States Mint behind them. Now the danger of the panic is over and the sun comes out from behind the clouds. Nevada was saved by the prompt action of the Acting Governor. But the News thinks that possibly the signature was not certified to just right. It is bound to pick some childish flaw. All it needs to do is to go over to the Secretary of States office and see the signature of Lem Allen on the document and also see that it is attested to by the Secretary of State through his regular deputy.

But if it should be able to show that there was some informality in the matter it could then conclude that the saving of the business of the State should be hereby declared "null and void."

To Pay Cash

Southern Pacific will Scatter Half a Million

OAKLAND, April 24.—At a conference at the Oakland mole yesterday E. H. Harriman, president of the Southern Pacific, and his leading officials, decided to have \$500,000 in cash placed at the command of the company in Oakland for the immediate payment of all outstanding pay checks and vouchers today.

Late yesterday this big sum was obtained and payments against it will begin today by the treasurer of the road and his subordinates.

The Southern Pacific usually pays in checks, but Mr. Harriman realizing that cash is needed under present conditions, made provision to pay in that manner. The large sum owed by the company, amounting to something like \$420,000, will be paid in cash in Oakland.

Reconstruction

SAN FRANCISCO, April 24.—Arrangements for the reconstruction of the new and greater San Francisco are rapidly crystallizing and soon the sounds of building will be heard in every block of the devastated districts.

As showing the disposition prevailing among the property owners of the city, the action of the Humboldt Bank, which will at once erect a new building seventeen stories in height, may be cited.

Two months ago plans were approved and contracts let for the building, and the steel for construction is already on the way west from Eastern agents of the contractors.

Yesterday orders were given to go ahead with the work of building. "Build fast," was the order, and this means the expenditure of every possible energy that money can purchase for the construction of the building.

The site is on the south side of Market Street, 100 feet east of Fourth. The site cost \$400,000, and is held by its owners to have every cent of its original value to-day. The building will cost \$500,000.

The construction will be steel and terra cotta, a construction that has stood the test by fire and earthquake. The Mutual Life Insurance Company has decided to rebuild on their old site on Montgomery, Sacramento and Commercial streets, a bigger and better building. It will now cover the whole frontage of the block on Montgomery street instead of a corner of the lot as heretofore.

They Are Safe

The many friends of the Kerseys will be pleased to learn that they escaped the disaster. Miss Kersey had been reported killed.

Here's a Tip Worth Taking

Next time you need clothes, remember that garments made to your order by the so-much-talked-about International Tailoring Co., of New York, Chicago and San Francisco, costs no more than ordinary ready-mades of the better grades.

And when you see what perfect-fitting, stylishly-cut, finely-finished garments they turn out for comparatively so little money, you'll wonder how any man can buy ready-made clothes instead of having this famous firm, the largest custom tailoring concern in the world, make them to measure for him.

WE REPRESENT THE INTERNATIONAL TAILORING CO.

because we know how reliable they are and how successfully they meet our customers' wishes.

We're Ready to Take Your Measure
anytime You Feel at Leisure

Stock Market

Goldfield Paper Takes a Bright View of the Situation

Southern Nevada mining stocks will not go to pieces by reason of the San Francisco disaster. That city may be burned; the exchange may be destroyed, and many of the brokers ruined, but Goldfield and other Nevada camps are still on the map, and the will and determination are here and the money is here to support the market, as a rock foundation, at sacrifice prices.

Moreover, the great money centers of the east have offered their co-operation: Mr. Charles M. Schwab and other influential factors in the mining world have come to the front and there will be plenty for all stocks that may be thrown upon the market.

On the first news of the disaster, and because of the close relationship of the local and San Francisco exchange, the Goldfield exchange decided to hold no call until conditions righted themselves. This action was ripe and timely. Many people, scared into a panic, would have thrown their stocks upon the market at any price and thus suffered untold loss. Others dealing in margins would have been wiped out and general disaster would have followed. By closing the exchange the panicky was prevented from selling and the situation held in statu quo ante.

Local sentiment was greatly buoyed in the midst of the deepest gloom Wednesday, by the receipt of a telegram authorized by Charles M. Schwab, in which he offered to loan money on all standard stocks up to 50 per cent of their value. Other offers were received from the east, and the local exchange itself braced the situation by sending to all the larger papers of the east a statement over the signature of President Bragdon, that the exchange solicited and would take all offerings of Nevada mining stocks which might be for sale pending the temporary close of the San Francisco exchange.

In the interim, and until regular sessions of the exchange are held, there is absolutely no trading being done between broker or broker and their customers. They pledged their honor at an exchange meeting, to hold things absolutely in abeyance, and wait for the formal opening call to trade.

Just when the exchange sessions will be resumed, cannot at this time be stated, but it may be taken for granted that whatever is being done is for the good of the public and with the full protection of their interests in view.—Goldfield News.

A son was born April 22d to the wife of Mr. Baber in Empire. The mother was formerly Miss Anna Larsen of this city.
